DOVETAIL DRAWER BOX

All of our dovetail drawer boxes are constructed using a half blind dovetail joint with a 3/8" bottom that is glued internally around the whole perimeter of the box. This attractive construction method also results in a very strong box that if given the proper care and handling will last a lifetime. Plywood material selections include unfinished or prefinished European birch with either a clear bullnose or a flat wood grain top edge treatment.

1/2" or 5/8" solid wood material options include all species that are offered in our door line in addition to Aromatic Cedar and Curly Maple. Choose between a matching plywood or white melamine for the bottom material. Our solid wood drawer boxes can be ordered either unfinished or with a clear coat finish.

DESIGN FEATURES

-3/8" Thick Standard Bottom

-Scoop A with Sloped Sides

-Prefinished 9 ply Drawer Box with a Clear Foil Bullnosed Top Edge

-Prefinished 9 ply Drawer Box with a Woodgrain Foil Flat Top Edge
